EXPERIENCE

Freelancing

Software -Engineer with AI Integration

Kathmandu

May, 2025 - Dec ,2025

- Worked with a two-person team on a real-estate-related client project through Upwork, developing a chatbot building platform.
- Created a user-friendly apartment booking website for Divine Suites Nepal that streamlines viewing appointments and provides admins with tools to update availability, images, and property news.
- Built chatbot demos for Nepali businesses to explore customer support and lead-capture use cases.
- Created voice agent prototypes for overseas use cases (e.g., barbershops) to understand call flows, speech handling, and automation.
- Developed workflow automations for Telegram and WhatsApp, focusing on message routing, triggers, and basic integrations.

Intern and Junior AI Engineer

America (Remote)

Nobel Navigators

Oct, 2024 – Mar, 2025

As an AI Engineer at Nobel Navigator, I got chance to work in

- Contributed to backend development to improve the Nobel Navigators website and implemented automated email systems for user onboarding and communication.
- Creating a user personal according to their reposes to the onboarding queries
- Creating a model to match interns with similar interests and hobbies together in a same class among different courses.

Software Engineering Intern

Kathmandu

Progressive Labs Pvt Ltd

Oct, 2023 - Jan ,2024

- Build a HR management system by working with a team and had a great experience building a real-life project.
- Utilized TypeScript to enhance type safety and improve code quality in the frontend projects.
- Worked with Git for version control, utilizing branching, merging, and pull requests to collaborate with team members.
- Collaborated with designers to create a UI demanded by the user and backend developers and to describe the data format needed in the frontend.
