Hello, I'm Prajwol Subedi a bachelors graduate in computer science passionate about building products and automating things.

EXPERIENCE

Software Engineer

Kathmandu

Software development with core backend

Feb2026 - Current

- Worked with modern backend tooling and practices including Prisma, MikroORM, environment configuration management, and API documentation using OpenAPI/Swagger.
- Built backend systems using NestJS and contributed to frontend development with Next.js where required and learned about CI/CD pipelines to streamline testing, deployment, and release workflows.
- Designed and maintained scalable database architectures, including schema design, migrations, and structured data management workflows.
- Collaborated in a team to built applications from scratch to live deployment and Gained exposure to deployment and infrastructure workflows through staging deployments and basic DevOps operations using Railway.

Freelancing

Kathmandu

Software development with AI Integration

Sep 2025 – Dec2025

- Collaborated with two person team to develop a real estate chatbot platform that allowed non-technical users to manage property listings and deliver AI-powered responses across messaging channels.
- Designed and Deployed an SEO-optimized landing page and apartment booking platform for Divine Suites Nepal.
- Developed a personal assistant with a Telegram bot and automated email workflows, integrated with Google Sheets, WhatsApp, Telegram, and Google Meet.

AI Engineer .

USA (remote)

Nobel Navigators

Nov 2024 – May2024

As an AI Engineer at Nobel Navigator, I had the opportunity to work on

- Worked on core backend functionalities including authentication systems, route handling, rate limiting, and secure data management.
- Designed and implemented automated workflows using n8n to streamline internal operations, communication processes, and data-driven task automation and built and integrated AI chatbot systems to support user interactions, onboarding flows, and automated assistance workflows.
- Analyzed intern and user datasets to extract operational insights and applied machine learning techniques to cluster users based on behavioral patterns and characteristics and Collaborated with cross-functional teams to take AI-driven features and backend services from development to deployment and production usage.

Software Engineering Intern

Kathmandu

Progressive Labs Pvt Ltd

Oct 2023 - Dec 2023

- Collaborated with a team to develop an HR Management System, gaining hands-on experience building web apps.
- Developed a secure authentication system while using TypeScript to improve type safety and code maintainability.
- Gained hands-on experience with Git for version control and implemented design patterns like Atomic Design.
- Collaborated with developers and senior engineers to build user-driven UI and define frontend API requirements.
